

## LAB: LAUNCH OPEN LAB

This lab contains no actual lab steps but instead serves as an open environment so that you can freely access all the virtual machines in the Cisco Programming for Networking Engineers (Custom) pod environment.

## OBJECTIVE

The Open Lab option be used for multiple purposes, such as booting up all VMs available in the pod, providing additional practice on your own or for custom labs, and troubleshooting any problems if an administrator.

## TOPOLOGY

## LAB SETTINGS

The information in the table below will be needed to complete the lab. The task sections below provide details on the use of this information.

Machine	Username	Password
CSR1000v		
R2
